CARBON CHRONICLE

Vol. 5, No. 21

Carbon, Alberta, Thursday, June 23rd 1927

THE HORSESHOE BRAND

The Horseshoe Brand on Boots, Shoes and Harness shows that they are the best quality. Goods marked with this brand cannot be bought from mail order houses or firms that buy only the cheap grades of Harness and boots, that look better than they really are. The Horseshoe Brand goods are guaranteed and the others are not. When buying Boots, Shoes or Harness see that the Horseshoe is stamped on them.

The new school site is a scene of activity now. Men and teams are busy excavating the basement.

Geo. Gibson had to go down 235 feet for water in the new well.

Mrs. Anderson, Mrs. Wright and Mr. Hart were visitors to the Trustees District Convention on Wednesday.

Allen Perry was a visitor in the district on Monday and Tuesday of

this week.

Owing to the wet weather, the farmers are still busy seeding.

Miss Davey and her sister, Jean, are visiting with their aunt, Mrs. D. Halstead.

Mr. Wm. Braden was hurt in a runaway while working his land last week and was rushed to a Calgary hospital. His daughter, Mrs. Lammle of Swallow, hurried to see him, but he was not as seriously injured as was at first reported.

INTERESTING PROGRAM FOR JUBILEE

On July 1st Carbon and district will unite to celebrate in a most fitting manner, Canada's Diamond Jubilee of Confederation. The local committees have arranged a very complete program, and granting favorable weather, those attending will participate in a celebration that will be a red letter day in the history of Carbon.

The program will commence at 9.30 a.m. with a big automobile parade with prizes of \$10, \$5 and \$2, and an additional prize of \$5 each, which will be donated by P. Edwards and others, for the three best decorated cars. The automobile parade will be followed by the children's parade and later H. S. Patterson of Calgary will give a patriotic lecture, which will be held in the Carbon Park. At 11 a.m. the Junior baseball game between Acme and Carbon will be played.

Then comes the Lunch Hour.

At 1.00 the Athletic events take place and this will be followed by the big water Carnival which will

ON IS TO HAVE A
PERMANENT DENTIST

Dr. H. G. Dunbar, dentist, has decided to make Carbon his headquarters and will open up an office here shortly. Mr. Dunbar is a Pennsylvania Graduate and has been practicing for the past twenty-five years. He is ex-president of the Nova Scotia Dental Council and was on the examining board for the Dominion Dental Council for 16 years. Mr. Dunbar will open a permanent office here in the near future and will spend most of his time in Carbon.

include swimming, diving, racing, boat racing, etc. And later the Senior baseball game will take place.

A big dance is scheduled for the evening and a large crowd is expected to be in attendance in the Farmer's Exchange hall for the event.

During the day the Sports Committee will operate two booths in the park, the sole purpose of these booths being to help defray the expenses of the Jubilee Celebration, and not for any individual benefit.

A special prize is being donated to the Rural school having the largest per centage of attendance during the year.

CARBON IS GOING TO THROW A PARTY AND YOU ARE INVITED. IT IS GOING TO BE GOOD!!!

Merchants, decorate your store fronts.

Citizens, decorate your homes and cars. Help us boost.

The red head of the species is said to be more deadly than the pale.

"THE GREATEST FORWARDING STEP

IN THREE THOUSAND YEARS"

The Wheat Pool

H. W. Wood, Chairman of the Board of Directors of the Alberta Wheat Pool, says that in forming this marketing organization the farmers took the greatest step forward in three thousand years.

The Wheat Pool enables wheat producers to handle their wheat in their own way and sell it themselves in their own way. The entire force of this great organization is directed towards the desired end of bettering the conditions of the western grain grower.

Every grain grower who joins the Pool now adds that much strength to the Organization. The stronger the Wheat Pool is, the better for Western Canada.

THE SECOND SERIES OF WHEAT POOL CONTRACTS ARE NOW READY.

Law and Order, or Chaos?

The action of the British and Canadian Governments in breaking off diplomatic and trade relations with the Russian Soviet Government is the culmination of a long series of non-diplomatic actions on the part of the British authorities, and openly expressed and active enmity to British interests in all parts of the world. Professing friendship and enjoying rights and privileges wherever the Union Jack flies, Soviet emissaries everywhere plotted and schemed to undermine British influence, destroy British interests, all with the avowed object of ultimately overthrowing the British form of government and breaking up the British Empire.

Wherever in any part of the world unrest was found to exist, wherever trouble loomed up, there the Soviet agents were busy carrying on their hateful propaganda, and always especially active if British interests were in any wise concerned. The British Government continued to exercise patience and forbearance until these ceased to be a virtue. In sooth, the Soviet regarded the policy of conciliation followed by Great Britain as a sign of weakness. They treated it with contempt while taking full advantage of it.

But it is not the British Empire alone that is involved in Soviet propaganda and activities. Every nation having a regard for the continuance of law, order and good government, and interested in the maintenance of sound economic principles in all international relationships and trade, must view with concern the attitude of the Russian Communist Government. In a word, all nations must recognize the fact that there are two major forces contending for supremacy in the world today so hopelessly antagonistic to each other that both cannot survive.

On the one hand, there is the communistic idea sponsored by the Soviet, a system which denies God, decries the moral code recognized in all civilized communities, ignores rights of property, flourishes on strife, discord and unrest, has no regard for obligations solemnly entered into by it, and ever seeks to promote its theories and activities through the medium of spies and openly lawless characters.

On the other hand there are those people who reverence God and religion, who uphold the moral code, who believe in the sanctity of marriage, recognize property rights, observance of law and respect for constituted authority and the honorable obligations of promises and treaties, who strive for peace and the orderly solution of social and economic problems, rather than resort to revolutionary methods, spy systems, treachery, threats, intimidation, even execution without trial.

One or the other of these codes for the government of mankind must prevail; there can be no compromise where principles of conduct are so absolutely opposed.

The nations of the world are coming to a realization of the situation and to an acceptance of the struggle involved. Unlike Great Britain and some other countries, the United States never recognized the Russian Soviet Government and has consistently refused to have any dealings with it. The whole English-speaking world now takes the same position. France, too, is alarmed, as is evidenced by the recent declarations made on behalf of the French Government. And U.S. Ambassador Herrick to France has declared his belief that "the people of every country have got to choose between order and anarchy, between honesty and thievery, between every day virtue and crime." "Either we believe in orderly society or we don't," he declared. "If we do, we ought to use all the power within us to defend and advance it."

Calling itself a Workers' Government, the Communists of Russia have sought to get control of organized labor throughout the world. In this they failed in Great Britain, in the United States, in Canada, where the hard common sense of the working men and the sanity and patriotism of their leaders have foiled these insidious attempts. "Reds" everywhere seek to create the impression that opposition to Bolshevism is opposition to organized labor, but nothing was further from the truth. Labor has everything to fear and lose from the spreading of the Russian doctrine and nothing to gain.

Eternal vigilance is the price of liberty, and as there can be no true liberty under the Bolsheviks, as even many of them have learned to their sorrow, the civilized nations must remain on guard lest they fall in the pit which has engulfed the people of Russia.

History Will Repeat Itself

Hudson Bay Railway is Only Another Aid to Canada's Progress

Those who talk of the Hudson Bay Railway in similar strains today should be reminded that only, comparatively, a few years ago Edmonton was regarded as too far north to become the centre of developed territory. But Canada, once all length, grows broader year by year. Marginal wheat pushes the limit of cultivation two hundred miles or so nearer the Arctic circle and long before settlement has exhausted the lands thus made available, means will be found to utilize those beyond them. The Morning Star believes that once the Hudson Bay railway is completed and begins operation, less than a decade will elapse before those who now condemn the enterprise as hopelessly fantastic will be glad to forget that they ever posed as prophets. Van couver Star.

Says Comet Caused War

The cause of the war was due to gaseous trails left in the earth's atmosphere by Halley's comet in 1910, declared a speaker to a meeting in Washington. The gas made humanity nervous, suspicious and irritable, he said, and if another war occurs in 1929, the Pons-Winnecke comet of last June must be blamed.

Pain in the Back Yields to Nerviline

If you have failed to secure relief from other remedies, rub on lots of good old "Nerviline" the strongest, most penetrating pain relief on the market. Nerviline acts quickly on small pains and is the surest to drive out the big ones. It's because every drop of Nerviline rubs in, because it has the ability to sink in deeply that it drives away pain that ordinary ointments won't touch. Large 25c, but it drives away pain that ordinary ointments at all dealers.

Muskies in B.C.

The development of the muskrat industry five miles south of Revelstoke will be proceeded with further this year, 160 acres having already been fenced in by the Revelstoke Muskrat Fur Breeders' Association.

Attacked by Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Oil for Pacific Naval Base

Representatives of the Anglo-Persian and other British oil companies have inspected oil exploration possibilities in Alberta recently with a view to securing a new oil supply area for the North Pacific naval base.

Always Ready and Reliable.

Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

R. A. F. Fighting Planes In Altitude Contest

Quickest Time Made in Ascent and Descent Will Decide Winner

Single-seater fighters, with motors supercharged to maintain power in thin air at great heights are to take part in an altitude race at the Royal Air Force display at the Hendon Aerodrome, N.W., on July 2.

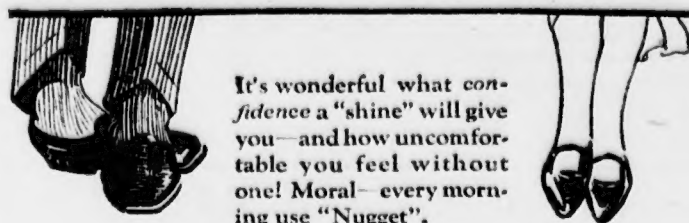

Ascending with sealed height records, they will rush up to more than 25,000 feet or approximately five miles. Their pilots will wear electrically warmed suits and be provided with oxygen-breathing appliances.

Having gained as rapidly as possible the height stipulated the pilots will come swooping back to earth again, the winner being the airman who makes the ascent and descent in the quickest time.

Honored Poor Inventor

Egyptian King Visited England to Pay Homage to Samuel Crompton

Because 150 years ago a poor boy named Samuel Crompton wanted to help his mother, a king came to England all the way from the glamorous Orient, with all his glittering entourage, to stand in silent homage at his simple gravestone.

What the boy did completely revolutionized the cotton spinning industry, made the British city of Bolton one of the busiest and richest towns in the world, and made possible a vast development in the cotton growing industry of Egypt.

That's why King Fnuad came from Cairo especially to take part in the centenary celebration of Crompton's death.

Last January, when the International Cotton Congress was held in Cairo, the King was asked to come to the Crompton celebration at Bolton. He accepted.

As a boy, when Samuel Crompton helped his mother spin yarn at home for the industry was then carried on in the cottages, the difficulties he encountered suggested to him a cross between the Hargreaves and Arkwright contrivances.

The invention is generally known in the trade as a "mule." Its principal innovation was the introduction of a spindle carriage which took away the strain on the thread and enabled much finer yarn to be spun, thus making mule yarn possible.

Sheep Protection Act

Municipalities in Saskatchewan Now Liable for Damage Done by Dogs

Saskatchewan's new act for the protection of sheep from dogs, went into effect May 1st. Under its provisions, any municipality in the province is liable for damages done to sheep by dogs, and all municipalities must appoint competent valuers to assess damages where sheep are destroyed or damaged by dogs. To provide funds to meet these losses, any municipality may impose a dog tax of \$1.00 for first and \$2.00 for the second male dog kept, and up to \$5.00 for each female.

Mirard's Liniment is reliable.

Gold Dredging in Alberta

Eastern capital will be expended this year in gold dredging operations on the Melend River, a tributary of the Athabasca, in North Alberta. The first dredging unit will be installed early this summer.

Lots of men pray for things they wouldn't be willing to work for.

Raised Thousands of Sheep

An old Norfolk shepherd died recently at Fellwell, England, at the age of 82. He was apprenticed as a shepherd at an early age and continued in that employment throughout the rest of his life. During his period of service he is estimated to have raised 200,000 sheep and only retired a few years before his death.

FOUND A HEALTH BUILDING TONIC

A Nova Scotia Lady Was in an Anaemic Condition

Men and women who do not sleep well and are not refreshed and strengthened by a night's rest, are generally suffering from thin, watery blood. The nerves fail to get the nourishment they demand and headaches and a worn-out feeling is the result. Building up the blood is the one sure step to renewed health and strength, and for this purpose nothing else can equal Dr. Williams' Pink Pills. From first dose to last they enrich and purify the blood, and in this way promote better appetite, better rest at night, and renewed strength.

Mrs. Mary E. Fildman, Williams-town, N.S., writes: "I have received so much benefit from Dr. Williams' Pink Pills, that I would feel myself ungrateful if I did not let you know."

I was in a very poor state of health and reached the stage where I had to remain in bed. A doctor was called in and he told me I had no organic trouble, but was simply run down from overwork. I had been left with a family to support, which I did by dressmaking. The doctor said my blood had almost turned to water, and advised a rest cure. I did not see how it was possible for me to take a very long rest, so I decided to try Dr. Williams' Pink Pills. Soon I found my strength returning and before very long I was able to go about my duties as usual again. This was a few years ago, and my health remained good until about a year ago, when I broke out with humor of the blood. Again I consulted the doctor, who said my blood had become so thin that it had really poisoned itself. I told him I had bought several boxes of Dr. Williams' Pink Pills, and he told me to go on taking them as he thought they were just what I needed. I took eight boxes and again was in good health. I can therefore recommend these pills to all in a weak or run-down condition."

Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price, 50 cents a box. Try them today.

Learned the Reason

Forbes Magazine tells of a colored agent who was summoned before the insurance commissioner, "Don't you know," said the commissioner, "that you can't sell life insurance without a State license?"

"Boss," said the man, "you snubbed a beautiful. I knowed I couldn't sell it, but I didn't know the reason."

Printed every Thursday at Carbon, Alta.
\$2.00 a year

The man who stops his paper because he is a "little short" and keeps right on smoking "fifteen cent or two-for-a-quarter" cigars lays himself open to suspicion as being "off". The man who don't want to take the paper because he is taking too many now, had not ought to feel aggrieved when said paper forgets to make any special mention of his fine horses, which sold at a big price or fails to reprint

the complimentary notice a paper in some distant city makes of him, not knowing how poor a friend he is to the printer. The man who sticks a card in his window offering his stock and the business for sale and makes no mention of his offer in the papers, ought to take it, no matter how low it is. He is too far behind his time to make business go in these years. These facts are like the government reports respectfully submitted.

Stranger: I represent a society for the suppression of profanity. I want to take profanity out of your life and—

Small boy: Hey, mother. Here's a man wants to buy dad's golf clubs.

A good book is a fine companion, specially a bank book.

Teacher: Johnnie, what does note mean?

Proverbial Johnnie: It means

girl. Teacher: What makes you think that?

P.J.: Well, the other day the nurse comes in and says to pa, "It's a girl," and pa says, "That's a hell of a note."

A boss is a boss, but a good

looking stenographer is an asset to any business.

A: Who was that peach I saw you with?
She wasn't a peach, she was a grapefruit.
Why a grapefruit?
I squeezed her and she hit me in the eye.

The Red Cross appeals to YOU for support

SINCE the War, the Red Cross has disbursed over Seven Million Dollars for the Soldiers, Women, Children and Frontier Families of Canada.

About half of this has been spent for disabled soldiers—half in the other services of the Society about which you have been told. The Treasury is almost empty.

\$1,000,000 Needed Now for Red Cross Work

The Red Cross brings cheer to our disabled warriors and their families. It stimulates the children of Canada to healthy living and good citizenship. It relieves suffering, and brings skilled attention to Canada's frontier districts remote from other aid. Its work is indispensable.

It now appeals to YOU, as a patriotic and humane Canadian citizen, to contribute generously to its need for funds.

Labor costs can be reduced with a Fordson

Of all items entering into the cost of crop production, labor is the one item that can be reduced. And the only effective means of reducing costs to a minimum is the adoption of mechanical power and modern farm machinery.

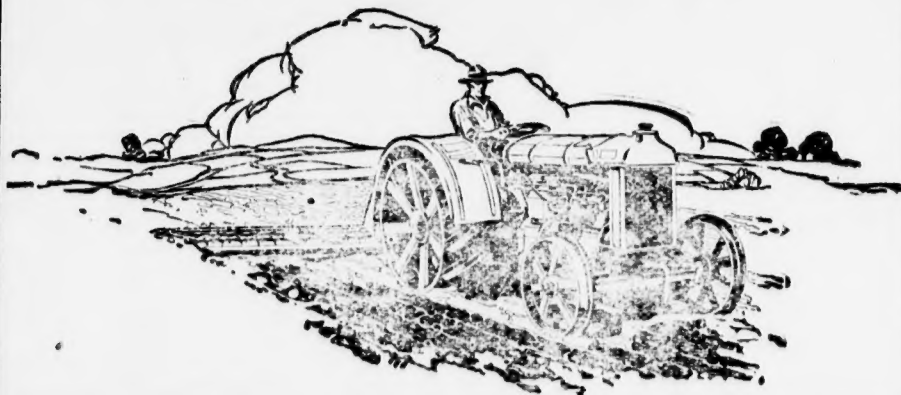

A Fordson farmer has a greater capacity for work. He can accomplish 2 or 3 times as much as he did before and with greater ease and convenience for himself. This saving in labor makes possible larger acreages, sown under ideal conditions—at just the right time. And, an extra 15 acres of wheat often more than pays for a Fordson.

The Fordson is built and sold to serve mankind. It is significant that over 17,000 are now in use on Canadian farms. Ask us for a copy of our new folder which explains the exclusive mechanical features of the Fordson.

Borden's ST. CHARLES MILK

WORLD HAPPENINGS BRIEFLY TOLD

For the first time seven judges took their seats on the bench of the Supreme Court of Canada. The Supreme Court was continued last session to its present complement.

Congratulations upon the recent opening of the Commonwealth parliament at Canberra have been transmitted by President Coolidge. In a message to the governor-general of Australia.

Liquor seized by the coastguard from rum runners outside the 12 mile limit can be introduced as evidence in the trials of the rum runners, the U.S. Supreme Court decided.

Motormen and conductors of the Winnipeg Electric Railway have settled the question of wages by accepting the company's offer of one cent an hour increase each year with a three-year contract.

By the present tentative plans the Prince of Wales and Princess Baldwin will sail from England July 23, arriving in Quebec July 29. The Prince and the Princess will spend August 2, 3 and 4 in Ottawa as guests of Their Excellencies, the Governor General and Lady Willingdon and of the Government of Canada.

One of the finest collections of Indian material in Canada consisting of bone, horn, stone and slate objects which was recently purchased by McGill University has just arrived at the David Ross McCord National Museum. This collection was dug from the ground many years ago in the district surrounding Brantford, Ont.

"First class" is the word that Hon. George Hodley, minister of agriculture, applies to Alberta crop prospects. He says that in 36 years' experience in the province he has never known the land in general to be in such good condition, and the reports that are coming in give every reason to expect a big season.

Sir Frederick Stupart, director of the Dominion meteorological bureau in commenting on the predictions of Herbert Browne, of Washington, D.C., to the effect that 1927 will be a summerless year, said he does not regard such a prospect as probable, and that even if the year should prove to be summerless it would be impossible to forecast the fact this far in advance.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callus comes out without injury to the flesh.

Patient: "But doctor, you are asking \$10 for taking a chlder out of my eye."

Specialist: "Now, now. My charge is for removing a foreign substance from the corner."

W. N. U. 1024

Observing Diamond Jubilee

Large Attendance Expected at Service in Westminster Abbey
Preparations are now well advanced for the great service in Westminster Abbey, July 1, which will form the chief commemoration in London of Canada's Diamond Jubilee. The Dean of Westminster, Very Rev. Dr. Foxley Norris, has drawn up an order of service which follows as nearly as possible that which was used when the jubilee of Confederation was commemorated in the Abbey in 1917.

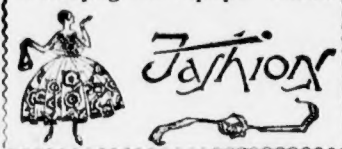

Owing to the King and Queen having a number of engagements to fill in Scotland so close to the date, it is feared it will be impossible for Their Majesties to attend the service. The Duke of Connaught already has intimated his intention to be present. Practically the whole of the British cabinet and a large number of representatives of embassies and legations have asked that seats be reserved for them.

New Use For Helium

May be Substituted for Nitrogen in Air of Diving Bells

When helium was first discovered it was considered a sort of scientific toy, and was obtainable only in extremely small quantities. Then it was produced in quantity sufficient to take the place of hydrogen in airships. Experiments are now in progress to substitute it for nitrogen in the air of diving bells, for the nitrogen under high pressure enters the tissues of the bodies of the divers, and when it escapes during the ascent causes severe lacerations. The discovery has an economic value for with helium it will be possible for divers to descend to the bottom of the Bay of Vigo and secure millions of gold from sunken Spanish galleons.

Winnipeg Newspaper Union

A Smart Frock for the Junior Miss

This chic little frock is smart in every detail and would be equally attractive if fashioned of silk, fine woollen material, or washable goods. The skirt has plaits in the front and is joined to a bodice having the modish deep V front ending in a single scallop, and there is a belt across the one-piece back. Contrasting material is effectively used for the shaped collar, front shield, and cuffs finishing the long tight-fitting or short sleeves. No. 1531 is in sizes 8, 10, 12 and 14 years. Size 10 years requires 2 1/4 yards 36 inch material, or 1 1/2 yards 54 inch, and 3/4 and 36 inch contrasting. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Nothing succeeds like the efforts of a man to be disagreeable.

Has Had Wide Experience

Fortunate indeed is the person, entering the dining room of a large hotel, who is acquainted with the head waiter. Umberto Tragella, who will be the superintendent of service at the new C.P.R. Hotel Saskatchewan, at Regina, has served in the dining rooms of some of the largest hotels on the continent, including the Empress at Victoria, Hotel Vancouver, Place Viger, Montreal, Knickerbocker, Sherry and Rectors, New York, and the Gunewald Hotel, New Orleans.

Will Always Bring Results

Success Assured if Anything Worth While is Advertised

Some time ago the people of Colorado Springs got the idea that there were great attractions in that place for tourists. Following up this bright idea they made spasmodic efforts for several seasons to attract visitors, but without much success. So they decided to appropriate \$11,000 for advertising. This helped, and the next year they increased the sum to \$60,000. They advertised chiefly in newspapers, all over the country. Over 88,000 autos visited Colorado Springs last year, carrying some 350,000 people. More than 90,000 more people came by train. These visitors spent about \$13,000,000 in the Colorado Springs neighborhood. Not a bad return for a \$60,000 investment! Where there is no publicity the enterprise perishes. If there is something really worth while advertising of the right sort will make a great success of it.

The Oil for the Athlete. In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

British Capital Interested

Campbell Hunter, O.B.E., well known geologist and oil expert, accompanied by C. L. Fisher, representing British capital, is investigating the Wainwright and Ribstone oil fields. The Turner Valley will also be visited.

Was So Nervous The Least Noise Made Her Jump

Mrs. W. H. Yates, Ashern, Man., writes: "I was bothered very much with my heart and nerves, and the least noise would make me jump and almost stop my heart beating."

I told my mother about it one day, and she said that she had been bothered the same way and told me to get a box of

When I had taken the one box I felt quite a lot better and by the time I had taken three boxes I got relief."

SUNDAY SCHOOL LESSON

JUNE 12

PETER DELIVERED FROM PRISON

Golden Text: "Many are the afflictions of the righteous: But Jehovah delivereth him out of them all." Psalm 34:19.

Lesson: Acts 12:1-17.

Devotional Reading: Psalm 34:1-8.

Explanations and Comments

I. Peter Imprisoned, verses 1-4.—Peter, James and John were the three prominent men among the apostles, and Herod Agrippa I. began his persecution of the followers of Christ by having James beheaded. Finding that this act greatly pleased the Jews, he selected Peter as his next victim and had him imprisoned to await his execution after the close of the Passover. Executions were not carried out during the Passover, and Herod was nominally a Jew and most careful in all Jewish observances. Peter was guarded in prison by four quarters of soldiers, four sets of men, one set for each watch, two of whom were chained to Peter in his cell, and two were on guard outside, verse 6.

"When a man finds that a certain course of conduct is receiving popular applause he is led on to further excesses. A public speaker descends to a coarse and vulgar jest, and because it pleases the baser sort in the audience, and the speaker is awarded a round of applause, he is prone to descend to still farther depths of degradation."—Dr. J. H. Jowett.

II. Peter's Deliverance, verses 5-11.—Peter was in prison, but prayer was made earnestly of the church unto God for him.

"I wish I could burn these two words, unto God, into every heart, so that whenever we pray, in public or in private, they would stand right before us; and that before we prayed a syllable of prayer we would be sure every time that we had really come into the presence of God and were actually talking to him."—R. A. Rorrey.

At night, shortly before he would have been brought forth for trial and death, help came. "There is the enemy plotting, there are the friends praying; and the man himself around whom all the peace and the intercession are gathering has shut his eyes and quieted himself to slumber, because there, too, is he who neither slumbereth nor sleepeth. God is there in the palace, there in the house of prayer, there in the prison, keeping all the threads of the drama in his own hands; holding the tyrant's power in derision, hearing the prayer that ascends to his holy habitation, responding to the trust of his child, when He is lulled to sleep. And now it is His time to work. The final act is ready to be launched on the stage. The moment of deliverance is appointed, and already His messenger and instrument is on the wind to loose him that is appointed unto death. How well may Peter sleep when God is watching over his bed and preparing his awakening!"—Robert Law.

The circumstances of Peter's escape are told very minutely—the coming of the angel (the word angel means messenger), the light in the cell that awakened Peter, the brief words to make haste, the falling off of the chains, the girding and putting on of sandals and outer cloak, the command to follow, the passing of the first and the second guard, the opening of the outer gates of the prison leading into the city, the going out and passing through one street, and then the being left alone.

Peter was dazed and thought his experience unreal until he "came to himself" and said, "The Lord hath sent His angel and delivered me out of the hand of Herod." One thing is certain, whoever delivers us from a great peril will always seem to us an angel. "There are no bolts and there are no bars which can withstand the purposes of God."

Wise mothers who know the virtues of Mother Graves' Worm Expeller always have it at hand, because it proves its value.

Shipping Salmon Eggs

The Largest Consignment Ever Made in Canada

The largest single consignment of salmon eggs ever shipped in Canada was that made by officers of the Fish Culture Service of the Department of Marine and Fisheries to the upper waters of the Fraser River in British Columbia. Fifteen million sockeye eggs, in the "eyed" stage, were transferred in specially constructed crates from the Dominion Government's fish hatchery at Pemberton on the Fraser River below Hell's Gate Canyon to the following spawning grounds in the upper Fraser: Stuart Lake, Francois Lake and the Quesset Lakes.

Flin Flon Mine

The \$750,000 concentration plant at the Flin Flon mine in Northern Manitoba has begun operations and 20,000,000 tons of ore have already been blocked out, according to the Winnipeg Board of Trade, which is actively supporting the construction of a railway into this area.

Would you buy canned goods that bore no label? Would you buy an automobile of unknown make, no matter how cheap? Nobody would be so foolish.

You get to trust a name or a label just as you get to trust a man, through satisfactory and honest dealings. That is why kitchen and household utensils bearing the SMP label are bought without question by millions of Canadians. The shield-shaped green and red SMP trademark is a guarantee of full value and best quality. The firm behind SMP goods is

Saskatchewan Egg Pool

Farmers' Wives Constitute the Board of Directors

The women of Saskatchewan are winning their spurs in the egg and poultry field. At the first annual meeting of the Saskatchewan Egg and Poultry Pool, the directors of which, all but one, are wives of farmers, the report of the year's business showed a turnover of \$537,117. The Pool began business at the end of March, 1926. During the year it handled 1,199,847 dozen eggs and 510,000 lbs. of poultry. At the close of the year the pool had paid-up share capital amounting to \$12,374 and a reserve of \$7,700. The membership is approximately 16,000.

Soldier Settler Lands

Movement Started for Re-Valuation of Holdings in Saskatchewan

Machinery for the re-valuation of soldier settler lands throughout the west, long awaited, was set in motion for Saskatchewan when the start was made in the Regina office of the board to send 2,500 letters to soldier settlers. With the letters went forms of application for re-valuation and these must be filled in by the settlers and returned to the board by October 1st.

Vancouver Island Mines

The Ladysmith Smelter is to be taken over and equipped with modern machinery to treat ores of the mines of Vancouver Island. It is expected this will mean a marked revival of operations of many old, low-grade ore properties.

Insect Bites.

NEW U. S. ENVOY IS PRESENTED TO LORD WILLINGDON

Ottawa. — Hon. William Phillips, first United States minister to Canada, formally presented his letter of credence to His Excellency the Governor-General, Mr. Phillips was presented to His Excellency by Dr. O. D. Skelton, under secretary of external affairs for Canada.

"My government seeks," said Mr. Phillips, "in the establishment of my mission, to strengthen the cordial sentiments which have ever animated the people of Canada and the United States, confident that their association in everything that touches peaceful and orderly progress will bring new benefits to both." And these cordial words found echo both in the letter of credence from President Coolidge and in the reply of Viscount Willingdon, Governor-General. President Coolidge observed that Mr. Phillips is well informed of the desire of the United States government to cultivate to the fullest extent the friendship which has so long existed between Your Majesty's Dominion of Canada and this country.

"I am very sensible," said Viscount Willingdon in reply, "of the remarks to which you have given expression with regard to the cordial and friendly relations which have long existed between our two countries, and can assure you that both I and my government will give you every assistance in promoting our mutual progress and prosperity. We, in Canada, recognize the many advantages we have obtained from the fact that we live in close association with a great and powerful neighbor and trust that these relations may be confirmed and strengthened during your term of service amongst us."

International Bridge Opened For Traffic

Formal Dedication of Peace Span Takes Place in September

Buffalo, N.Y. — The new international peace bridge spanning the Niagara River between Buffalo and Port Erie, Ont., was opened to traffic June 1 with simple ceremonies of the two countries which it connects.

Promptly at the time set for the opening, automobiles containing officials of the bridge company and Buffalo public officials led by Mayor Frank K. Schwab, left the United States end of the structure for the Canadian side. There, they circled around the peace bridge plaza picked up Canadian officials headed by Reeve Louis Douglas, of Port Erie, and returned to the American side.

Display and ceremony was lacking. That will come probably in September when at the formal dedication of the \$4,500,000 span, high officials of the Canadian and United States governments will take part. President Coolidge has been invited and sponsors of the ceremony expect the attendance of the Prince of Wales and Premier Baldwin of Great Britain as well as Canadian executives.

To Represent King at Service
London. — Their Majesties the King and Queen will be represented by the Duke of Connaught, at the great service in Westminster Abbey, on July 1, in celebration of the Diamond Jubilee of the Canadian Confederation, the Canadian Press is officially informed. Their Majesties will not be able to attend the service, as they will be engaged in Scotland at that time.

Premier of B.C. Recovering
Hamilton, Ont. — Hon. John Oliver, Premier of British Columbia, who was convalescing at the home of his son here for some time following an operation he underwent at Rochester, Minn., has so far recovered that he left on an automobile trip to Gray County to visit relatives.

Plan Big Elevator
Vancouver, B.C. — The Province says: "Construction of a 1,500,000 bushel grain elevator to cost approximately \$2,000,000 will be commenced here shortly by the Alberta Wheat pool, according to announcement from Calgary."

For a Better Understanding

Appreciation of Needs of All Portions of Canada Required Says Beatty

Vancouver. — "In this year which we celebrate the Diamond Jubilee of the Confederation of Canada, our greatest contribution to the memory of those courageous fathers of Confederation should be a greater understanding of the needs of those portions of the country in which we ourselves do not live," said E. W. Beatty, president and chairman of the Canadian Pacific Railway in an address given at a combined luncheon of the Canadian Club and the Vancouver Board of Trade.

"National characteristics are backed by greater resources heretofore undeveloped," said Mr. Beatty. "The first is the tremendous areas of agricultural lands producing the finest wheat in the world, and not less important vast areas of equally good arable land as yet untouched by the plow."

"It is estimated, in fact," continued Mr. Beatty, "that only from one-twelfth to one-eighth of the country's agricultural lands have as yet been cultivated. The second is its also unlimited water powers. I doubt if there is any other country in the world so plentifully supplied with power development as is Canada, and every one realizes that that means as a factor in industrial expansion."

"The third is its forest wealth, which already has enabled it to conduct lumbering operations, the annual output of which exceeds \$145,000,000 and to produce pulp and paper to the value of \$200,000,000."

"Then there are its mineral possibilities, the possibilities of which are very great enabling it to produce gold, silver, nickel, zinc, lead and copper to an aggregate value in 1925 of \$112,000,000."

U.S. Pilot Lost Bearings

Went 145 Miles off Route Between Montreal and Ottawa

Ottawa. — After being in air for five and one-quarter hours, having lost his bearings and gone more than one hundred miles off his route, Captain R. G. Hoyt, piloting a United States army goodwill plane, landed at Ottawa. In leaving Montreal the aviator mistook the St. Lawrence River for the Ottawa River, he said, and after following the former stream for some hours, came to earth to regain his bearings and discovered he was 145 miles off his route.

The final landing in the capital at most proved disastrous. The field adjoining the Dominion Experimental Farm on which the plane came to earth was rough of surface and in gliding down the plane suffered a smashed wing and badly crumpled landing gear. Both Captain Hoyt and Sergeant B. D. Boozer, who accompanied him, escaped injury, however.

Cut-Off Date for Pool Wheat

Regina, Sask. — The directors of the Saskatchewan Wheat Pool have set July 15 as the cut-off date for the 1926-27 crop. It was officially announced. All street grain delivered and settled for by cash ticket on or before July 15 will be included in the 1926-27 pool. For carlot grain all grain not loaded out by July 15 will be carried over into the 1927-28 pool.

Ramsay MacDonald Will Take Rest

London. — James Ramsay MacDonald's doctors have ordered him to abstain from all active political work for a month. The former Labor Premier is still feeling the effects of the illness which confined him to a hospital during his recent visit to the United States and will go to Scotland for a rest.

British Discontinue Convoys

London. — The Admiralty has issued a communique stating that the British naval authorities in China were discontinuing the convoy of merchant ships as firing on steamers in the Yangtze river had ceased. Destroyers will be held in readiness, however, to deal with possible recurrence of firing.

Plans Ottawa-London Flight

Ottawa, Ontario. — Captain E. E. Janney, 34-year old Canadian flying ace, has announced definitely that he would fly from Ottawa on the morning of June 30 next in his proposed non-stop flight to London, England, to celebrate Canada's jubilee celebration.

WAR GESTURE IN RUSSIA FOLLOWS RAID IN LONDON

Moscow. — An appeal has been addressed by the central committee of all the Russian communist party organizations, declaring that the rupture of Anglo-Soviet relations is unquestionably a step towards war against the Union.

The rupture is further described as the culminating point in a long game of British diplomacy, inspiring and organizing an imperialist onslaught on the Soviet Union. It is emphasized that the Soviet Union has pursued and is pursuing a policy of peace, and that everything possible has been and is being done for the preservation of peace, despite provocations.

The appeal says that war may be forced on Russia, in spite of its efforts for peace, and calls on all members of the party and all toilers to pay the closest attention to questions consolidating the economic strength and defence of the country.

Getting Branch Line Work Under Way

C.N.R. Anxious to Have Lines Completed Says Vice-President

Winnipeg. — "We are forging ahead with the branch lines," said S. J. Hungerford, vice-president in charge of operating of the Canadian National Railways, who arrived in the city from Montreal.

"As quickly as the contracts can be let, the work is getting under way," he added.

The system was anxious to get the lines completed and serving the public as soon as possible, he said, and a good deal of the work would be done this year. Mr. Hungerford was not prepared to say anything regarding new development, and knew nothing of any projected lines into Manitoba's central mining areas.

The vice-president was here on one of his periodical trips for conference with western region officials.

A Giant Photograph

New York. — A giant photograph of 22,000 square miles of Newfoundland is to be taken from the air and placed together in the most thorough search yet to be undertaken for the missing French aviators, Nungesser and Galt.

It is believed this photograph will definitely establish whether or not the crew of France's White Bird succeeded in crossing the ocean and went down in Newfoundland.

Princess Mary Christens Ship

London. — Princess Mary christened the Canberra which was launched on the Clyde in the presence of a large gathering amidst considerable enthusiasm. The Canberra, named after Australia's new capital, is the second battle cruiser built on the Clyde for Australia in a few months. The first cruiser is now being fitted out.

Appeals to United Canada

Should Keep Soviet Agents Out Says Sir Henry Thornton

St. Thomas, Ont. — Sir Henry Thornton, president and chairman of the Canadian National Railways, in the course of an address before the business men of this city, suggested that agents of Soviet Russia should steer clear of this country and permit Canadians to build a united, contented and prosperous dominion.

"This nation is founded upon the fine traditions of the Anglo-Saxon race; its jurisprudence embraces the fine principles of the English law and fair play," Sir Henry said. "We are essentially a law-abiding people, and we want no element to come in and disturb that condition."

"Whatever others may think about other forms of government and about visionary schemes of society, it may conservatively be described as distinct and unique and if any communist wants to come here and raise the slaves, we should inform them that we can do the waking of these slaves ourselves."

Reach Amicable Settlement

Britain Waives Claims for Detention of Shipping During War

Washington. — Claims of the British Government and its nationals against the United States for seizure and detention of shipping during the world war have been waived by Great Britain, it was disclosed with publication of notes ratifying an agreement reached two weeks ago.

In return the United States Government agrees to employ the money thus saved to pay claims of Americans against the British which might fall of settlement in the British courts but which the United States Government regards as meritorious.

British claims which the United States Government has recognized as just are understood to total approximately \$1,000,000, with others for which liability has not been conceded reaching a higher figure.

Manxmen to Celebrate

Possibilities of Increased Immigration to Canada Will Be Discussed

New York. — Five hundred Manxmen residing in Canada and the United States sailed from Montreal June 3, for a four weeks home-going celebration on their native soil, the Isle of Man, famous for its catless cats and ancient for its self-government. Possibilities of increasing Manx immigration to Canada and the United States will be among subjects to be brought up at the celebration on the island.

Many Settlers Reached Winnipeg

Winnipeg. — A youthful party of 45 Scotch boys from the hills and glens of Scotland and from the industrial centre of Glasgow, have arrived in Winnipeg seeking jobs and farm locations on the prairies. With this party were four British and two Danish families who will settle on the prairies as soon as they can find a satisfactory place. Other arrivals were Poles, Russians, Hungarians, Czechs, Slovaks, Rumanians and Swedes.

FOREIGN POWERS SENDING TROOPS TOWARDS PEKING

Peking. — The movement of the Nationalists on Peking, ancient capital of China, and the strategic retreat of Chung Tso Lin, Manchurian war lord, under whose regime foreigners in the Peking district have been protected, has caused an ominous rumbling in the Chinese imbroglio. The powers are expected to concentrate added forces for protective purposes in the threatened area.

Japan has loaded 2,000 troops at Tientsin, ready to advance to Peking, capital of Shantung province, along the Shantung Railway, which Japan surrendered to China at the Washington conference. This advance, it is stated, will be made only if Japanese interests require protection. There are also indications from Tokyo that 2,000 additional troops will be despatched to Peking and Tientsin if needed.

Great Britain is ready to despatch at least a battalion to Tientsin from Shanghai, and it is understood the border regiment has been alerted.

The United States is moving between 4,000 and 5,000 marines from Shanghai and the Philippines to Tientsin to meet any emergency that may arise.

Practically all missionaries in the northern inland stations were evacuated to the coast early in April, and a large proportion of the women and children in Peking left either for the coast or for Japan at the same time.

The Japanese expedition is adversely criticized by all factions of Chinese here, who assert it has even less justification than the British expedition to Shanghai.

Canadian Minister Welcomed In Kentucky

Addressed English-Speaking Union on "Exploits of Neighborliness"

Louisville, Ky. — The Union Jack and the Stars and Stripes, policy fraternized over the heads of 150 members of the Kentucky branch of the English-speaking Union while Hon. Vincent Massey, Canadian minister to the United States, spoke on "Exploits of Neighborliness."

"I am glad English-speaking folk are learning that we may be good patriots and good neighbors at the same time," he said. He praised the English-speaking Union for its work in promoting comradeship and good feeling between peoples and paid a tribute to the Kentucky branch.

Judge R. W. Bingham, honorary president of the Kentucky organization, presided at the luncheon. He characterized England as the "most important entity in the world."

"By England," he said, "I do not mean a small island off the coast of Europe. I refer to the state of mind of the English-speaking people throughout the world who have wrought for themselves a condition of religious, political and social freedom without losing that supporting attitude toward life which is the characteristic of the race."

Increase in Chemical Sales

Ottawa. — Canada's chemical industry recorded an increase of \$7,500,000 in sales during 1926, as compared with the previous year, according to the Dominion Bureau of Statistics. Production by 533 plants was valued at \$129,569,518, as against \$112,000,000 for the previous year.

Approves Concession to Canada

Paris. — The Senate has adopted the bill, which has already passed the Chamber of Deputies, which approves the concession to the Canadian Government of ground in Vinay Ridge for the erection of a monument to Canadian soldiers killed in the war.

To Develop Mining Area

Winnipeg. — Two million dollars will be spent in the Central Manitoba mineral area on development work this year. Improved navigation and highways into this district are included in the activities of the Mining Bureau of the Winnipeg Board of Trade.

More than 9,000,000 passengers are daily lifted or lowered by lifts in buildings in New York City, according to Popular Mechanics.

Delightful Holiday Location

Algonquin Park, in Ontario, is one of the Dominion's charming holiday spots, particularly for the lover of fishing, canoeing and other aquatic sports. Here a canoeist is shown making his way through the passage which leads into St. Andrew's Lake, one of the beauty spots of this delightful holiday resort. — Canadian National Railways photograph.

Remarkable Development Of Canada's Greatest Industry, The Growing Of Wheat

Canada's greatest individual industry, wheat growing, has developed almost entirely since Confederation. The present generation of Canadians are accustomed to speak of their country as the granary of the world, a phrase which would have been meaningless sixty years ago when Confederation was brought about.

Canadians must look with pride upon the achievement in wheat production of the last sixty years. What it means to the general business and to the transportation of the Dominion needs only be stated to be understood. Exports of wheat from Canada in the last two years, and these were only average crops, have brought in to this Dominion more than \$175,000,000 annually. This money, coming into the possession of the farmers, has been spent on the hundred and one articles which they need, thus stimulating the industrial centres remote from the grain fields and affecting, indirectly, every citizen of the Dominion.

The bulk of Canada's wheat crop is grown in the prairie provinces. Each harvest time the enormous task of transferring this crop from the fields to the consumers in distant countries is undertaken and accomplished. The farmer hauls his wheat to the country elevators, the original gatherers of the crop. There are about 2,500 country elevators in the wheat producing area. The wheat is there loaded into box-cars and is started eastward and westward, as the case may be, to seaboard. If it is westward there is the long rail haul over the Rockies to Vancouver or Prince Rupert, whence it is shipped to Europe through the Panama canal, or to the Far East. In 1924-25, the last crop year for which final figures are available, 23,900,000 bushels went through Pacific Ports. In subsequent years the movement has been greater.

The greater part of the crop comes eastward in box-cars to Fort William and Port Arthur, where large terminal grain elevators are located. In 1924-25, the figures are interesting because relatively they change very little from year to year. 159,000,000 bushels came east. All this wheat, whether eastbound or westbound, is inspected by Dominion government inspectors and is graded according to quality.

The grading of wheat in this quantity of itself is a monumental task, achieved first by this Dominion and followed by a few other wheat exporting countries. Without government grading the marketing of Canada's export crop at a fair price would be impossible.

The world's market for wheat is Liverpool, England. Here come buyers and sellers and the custom, as in ancient times, is for the seller to show a sample of his wheat so that the buyer may see what he is purchasing. Obviously, when production reaches such proportions as it has in Canada this no longer can be done. The Canadian government solved the difficulty by establishing a grading system. Canadian wheat is graded under well-defined regulations and any buyer in the world may buy the quality of wheat he desires by grade. The quality is guaranteed and in many years of experience foreign buyers have not yet complained.

Having reached Fort William and Port Arthur, the mass movement of the crop is at end. From these ports it breaks into a score of channels all of them moving eastward towards the ocean. The grain fleets come to the head of the lakes for their cargoes. The wheat is loaded into these steamers and some of them sail to the Georgian Bay ports, others to Port McNicoll, still others to Port Colborne, many to Buffalo, and a few go right through to Montreal.

First Universal Language

Volapuk was the name given to what was intended by its author, Johann Schleyer, a teacher in Switzerland, to be a universal language. For some time after its invention in 1879, it flourished exceedingly, but then it languished, and its place is now taken by Esperanto, proposed by Dr. Zamenhof, of Warsaw, Poland, in 1887.

W. N. U. 1684

British Colonial Empire

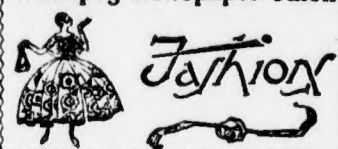

Colonies and Protectorates Have Population of Fifty Million

That the extent of the British Colonial Empire—that portion composed of colonies and protectorates, etc.—is roughly two million square miles with a population of 50,000,000, was the interesting statement in the report of the committee appointed by the present colonial conference to frame a scheme based on contributions to a common pool, for the creation of a scientific and research service. This service should be available to the whole Colonial Empire.

The committee, in view of the short time available, decided to restrict the inquiry to medicine, agriculture, veterinary science and forestry.

The conference of governors recently approved the scheme set out in the report and requested the Colonial office to appoint a committee to work out a detailed scheme for submission to all the Governments concerned. The conference was of the opinion that the scheme could be commenced on an income of about \$875,000 yearly, of which a considerable portion would be used in replacing existing expenditures on salaries of agricultural research officers.

Winnipeg Newspaper Union

Braid Trimming is Smart

This attractive dress has the much desired slendering lines and is a style suitable for all daytime wear. The front and back are quite plain and the plaited side-sections give added width and grace to the skirt. Braid is effectively used on the bodice to form a deep pointed yoke, and also trims the convertible collar, the cuffs finishing the long dart-fitted sleeves, and sides. No. 1522 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38 requires 1 1/4 yards 39-inch material, or 3 1/4 yards 54-inch, and 7 yards trimming braid. Price 29 cents the pattern.

Many styles of smart apparel may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

Canada Prefers British Settlers

But Only Limited Number of Right Class Are Available

"The importance of applying policies providing Canada with man-power, without introducing unemployment but rather increasing the demand for labor, must be emphasized, with the necessity of preventing the admission of undesirable emigrants," Hon. Robert Forke, Canadian Minister of Immigration, declared in London while discussing Canada's immigration problems with newspapermen. "Canada's immigration activities are therefore both positive and negative," he added.

Shortly after his arrival with W. J. Egan, Deputy Minister of Mr. Forke's department, the Minister received about 30 journalists at his hotel and, after reading a written statement he had prepared, answered their questions.

"Canada has adopted the policy," he said, "of encouraging farm laborers and household workers. In recognition of the strong British strain in the national fabric, special emphasis is laid upon immigration from the British Isles. Courageous steps have been taken to relieve the British settlers of the handicap of high ocean rates. The fact that only a limited number from the classes mentioned are available from the British Isles necessarily broadens the field to include the United States and European countries from which suitable settlers may be secured."

Danish Government

May Aid Immigration

Country is Fertile Field for Recruiting New Canadians

Conducting a party of 85 Danish settlers, who reached Montreal on the White Star liner, Dorte, to points in eastern Canada, Lorenz W. Sass, travelling inspector for steamship companies in Denmark, declared that Denmark was a fertile field for recruiting Canadian immigrants.

Considerable unemployment prevails there. The chief drawback to a larger influx is lack of money. In this connection, however, said Mr. Sass, the Danish government is considering ways and means of meeting this difficulty and is studying a plan practised by the Norwegian government whereby prospective emigrants are furnished with sufficient funds and given easy terms in the matter of repayment.

Out of Everything

If you haven't an automobile you are out of everything, including debt. If a friend presents you with a watermelon, you can't get it home conveniently. If you wish to go anywhere not on a railroad or street car line, you must call a taxi, or depend upon a friend who owns a car, and you and your car-owning friends are seldom interested in going to the same place. If you walk you may be run over.

Marriage to a woman means a lifetime job as a detective.

Canada Is Reaching Out With An Ambitious Program Concerning Aerial Navigation

International Stock Show

A Carload of Bacon Hogs From Manitoba Will Be Exhibited

A carload of bacon hogs will be included in Manitoba's exhibit at the international stock show in Chicago this coming fall. J. E. Ritchie, manager of the Provincial Fair, has returned from a meeting of the Manitoba Livestock Board, where provincial plans were laid. The bacon hog exhibit on such a scale will be the first step by Manitoba to gain recognition for that particular type of animal raised in the province. Three carloads of horses and two of cattle will be sent by the province to Toronto and elsewhere, a portion going on to Chicago. The sheep men will have a worthy exhibit for Toronto, Guelph, Ottawa and other centres.

To Buy Canadian Cattle

Association Formed in South Wales For Direct Importation

The Canadian trade commissioner at Bristol, England, reports the formation of the South Wales and Monmouthshire Cattle Importers' Association, Limited, who during April filed a copy of their prospectus. The chief purpose of this co-operative movement is the direct importation of Canadian store and fat cattle, and to this end a central Canadian purchasing organization has been established. The new association represents nineteen meat traders' associations throughout South Wales and Monmouthshire and the capital is approximately \$30,000.

Nebraska Farmers Coming

Advance Agents Seeking Suitable Tracts of Land in Alberta

Representing fifty Nebraskan families who wish to settle on Canadian farms, Frank Stewart, of North Platte, Neb., headed a delegation of three who have been conferring with C. A. Van Scoy, superintendent of colonization for the Canadian Pacific Railway. The land seekers will go to Calgary with a representative of the colonization department to inspect suitable tracts in Alberta. The group proposing to emigrate has ample capital, it is said.

To Improve Highways

Two million dollars will be spent in the Central Manitoba mineral area on development work this year. Improved navigation and highways into this district are included in the activities of the Mining Bureau of the Winnipeg Board of Trade.

You can't believe everything a woman says who compliments another upon her beauty.

In this year of Jubilee Canada is reaching out with an ambitious program of aerial navigation which the most imaginative of the Fathers of Confederation never entertained even in their wildest dreams.

Flying in Canada was born of war, and in these later days of peace the conquest of the air goes on apace. During the war flying was a young man's game, and the youth of Canada won renown with machine-guns bristling from the cockpits, propellers roaring, and bombs swaying from the undercarriages. It was grim business but it proved the sporting blood of a young nation.

Peace came and these young men who rode the whirlwind returned to Canada to earn their living as civilians. But the spirit of war air-work survived, and in a small but seasoned organization called the Royal Canadian Air Force the traditions of aerial navigation were carried on. The young airmen, trained in war days looked to the civil departments of government for employment. They were needed and within two or three years of the close of the war many of them were in the Royal Canadian Air Force, detecting forest fires, locating smugglers on the boundaries, and snapping out by photography the vast areas of the hinterlands.

Civil flying soon pushed its way to the front during the post-war years, and the government of Canada was quick to establish the necessary code of laws for aerial navigation. The administration of these regulations was given to a branch of the Royal Canadian Air Force, and today the Dominion is safeguarded by a set of strict regulations governing the licensing of all mechanics, pilots, air harbours, international flying signals, and the inspection of air craft.

The most conspicuous work done during these recent crowded years of flying history in Canada has been the survey work in which the Dominion has led the world. Other countries have put on spectacular flights of astonishing endurance, but Canada's contribution has been along sound commercial lines. In 1926, 56,000 square miles of Canadian territory were photographed and mapped with an accuracy which would have required years and millions of dollars if done by ground work.

The year 1927 has brought a practical acknowledgment by parliament of this valuable work. Since the war Canada has never spent more than \$1,500,000 a year for air development. This year more than \$2,000,000 was voted by parliament for the Royal Canadian Air Force to be divided between military and civil flying. Cities are being encouraged to set aside land for future air harbours, technical advisers from Great Britain are visiting the Dominion to make recommendations for the future linking of the Empire by airways, and the Post Office Department is taking the initial steps towards what will be an Atlantic to Pacific air mail route.

Canada's future in the air is assured. So certain is the Canadian Government of the development to come that at the Imperial Conference of 1926, Canada pledged herself to the erection of a great mooring mast which will be one of the air ports for the vast dirigibles being built in England to cruise the world through the Empire's skyways.

Wild Horses Are Worthless

Hundred Dollars Highest Bid Recently in B.C. for Eighteen Head

Hunters in the interior of British Columbia are expected to turn in 1,000 sets of ears from wild horses they will have killed on the range this year. For these they will get a bounty of \$1.50 per set from the provincial department of lands and forests. The horses are practically worthless, \$100 being the highest bid received for a corralful of 18 head rounded up recently at Springhouse, one of which was a four-year-old stallion weighing only 400 pounds.

In Great Britain the feet are used as an aid to identification and it has been shown that the inhabitants of London have long slim feet, those of Wales low in the arch, and those of Scotland, broad in the sole.

There are various mediums of art, this photograph being an example of the clever use of sugar by the veteran pastry chef of Chateau Lake Louise, John Meyer. It is a true copy of the new Hotel Saskatchewan, Regina, 38 1/2 inches, weighing 80 pounds, of glistening white sugar. Mr. Meyer did all the work on the candy structure himself, the masterpiece occupying his time for ten days. The candy copy of the new hotel was taken to Regina for the opening on May 24th.

CHAPTER I.

It all began with the rustle of silks.

When Helmi's Aunt Lili came back to Finland for a visit, after six years of the crowded ways of life in America, the older womenfolk of her family regarded her with mingled feelings of awe, envy and reproach. Her elder sister, Helmi's mother, said it was foolishness for a girl who had to earn her money hard, carrying trays, to put it all on her back and wear clothes that only queens should be wearing. At which Aunt Lili laughed, showing her gold teeth, and said it was a matter of principle with her to spend her money so fast that no one could steal it from her! Helmi was the one member of the family who gave the visitor, full hearted and unadvised devotion. She loved the rich sound of her silken skirts, it was so luxuriant, so blent, it seemed to raise the whole family to a higher social level, and she marvelled how anyone, even her mother, would dare to find fault with this wonderful person who wore silk stockings, had fur on the inside of her coat, and pink ribbons in garments that did not show at all!

Aunt Lili had not spent all her money on her own clothes. To Helmi's mother she had brought a purse which closed with a crack. It had a head on one side, and two claws which could be flapped on the other side; gold satin lining; mysterious chambers inside; and better than all was the delicate inference it conveyed regarding women and money. To Helmi's father she brought a silk handkerchief with welled roses on both sides, a sort of magic handkerchief, for no matter how hard it was squeezed, in one's hand it would spring out again without even a wrinkle. To Anna, Helmi's big sister, who had her hair in bangs, she brought a square bottle of powder the color of skin, and a round downy thing to put it on with. Aunt Lili used a black sock herself for this purpose, but she said powder-puffs were certainly style in America now.

Aunt Lili made many contrasts between America and Finland. "You

work too hard here," she said, "and you never play. We work in America, but we have good times, too. This country is all right for men, but what is there for women but raising children and work? When a woman here is married ten years she is old, and her life is over. It is all just giving in, and giving up for women, until at last they give out. I wouldn't live here if you gave me the whole country. I couldn't stand it now after I have seen what a good time American women have!"

Her words, received in silence by the older women and scoffed at by Anna, who was going to be married in the Spring to Emil Saari, who lived near and had built a two-roomed house, found a sympathetic listener in Helmi, who was then thirteen. Her mother and Anna might be content with Finland, but Helmi's eyes had caught the vision of the far country.

The resolve to see this wonderful country for herself was definitely taken when she saw the beautiful picture Aunt Lili brought her. It was a colored picture, shiny as ice and glowing with light and color, called "Aunt's Flower Garden." It showed an old-fashioned garden bursting with roses and hollyhocks and Canterbury bells. Down the brick walk came two lovely ladies, one in a crimson velvet dress, the other one in fairy blue; a little golden-haired girl ahead of them clad in white, carried a green basket brimming with roses.

Helmi believed that title literally and wondered how her Aunt Lili could leave such an enchanted place even to come for a visit to the old home. Aunt Lili had saved soap wrappers to get the picture, and had left it honestly enough in the paste-board roll in which it came and where all concerned might see from whence it came. But to Helmi the name carried proof—"Aunt's Flower Garden." It was too thrilling a thought to lose, so she did not ask for confirmation.

Aunt Lili stayed for the Black Ice Skating, and then returned to her adopted country, but the picture she left with Helmi kept the fires of her imagination and desires burning.

Brighter still they burned after her mother died and the querulous, scolding grandmother came to direct the house until her son would find a step-mother for his family. Anna had married and entered upon the strenuous program of a baby a year.

With monotonous work and continuous scolding all around her the example of Anna, who was rapidly losing her red cheeks and her light heart, Helmi held to the vision Aunt Lili had given her of the Promised Land. The roses in the picture nodded approval, the Canterbury bells were ringing a welcome, the velvet-clad ladies, still sauntering along the garden path, smiled into her eyes and whispered "Come and be one of us."

There are great moments in every life. When Aunt Lili sent the money and Helmi, now seventeen, held the letter in her hand, with its mysterious pale blue paper that the postmaster said was money, she was suddenly caught up into another world. Now all things were possible, for here were the wings with which she could fly away! She, too, would come back with silk skirts that creaked like a bag of cabbage, and purses and toys for Anna's children. Granny would be sorry then for the things she had said, but she would tell her that the past was gone. She was sorry for Granny, who would never, never see America.

Helmi made the journey to Saint Paul, Minnesota.

It was well that her young heart was fortified by so many pleasant

thoughts upon the way, for bleak disappointment and sorrow were hers when she arrived. Aunt Lili, the dashing Aunt Lili, who seemed to defy sorrow and death just as she defied conventions and traditions, lay fighting a losing battle with a pitiless disease, in a cheerless little room in the hotel owned by her husband. Over the bar, in the noisiest room, lay the shadow of the great Aunt Lili, praying just one prayer between her spells of coughing, that she might live until her young niece came, and then have breath enough to tell her what she must be told.

Letters take a long time to go to Finland, and although she had written as soon as she knew how serious her condition was, she feared her message might not arrive in time to save Helmi the journey. She must stay alive for Helmi's sake. Helmi had always been her favorite niece, Helmi with her golden hair, and eyes the color of the green brown moss in the bottom of the running puro at home. "Oh, just enough time to see Helmi and tell her things please . . . please . . . God!"

And so the frightened Helmi, who had expected to be met by the Great Person who had brightened her childhood, came into the dark and dreary room, whose only vivid spot was the white face on the soiled pillow with its two burning eyes.

"Don't kiss me, Helmi. Ain't it awful? It is a bad disease I have which goes from me. I thought it was just a cold like I often have, but it's worse than that. Anyway, I only wanted to see you and tell you. Don't stay with Mike. He says he will keep you. You do not owe him the money—it was mine. He wants you because you are young and pretty. The girls tell me he's acting bad already, and me not dead so soon. I have money enough to send you back, Helmi, that will be best. You know what is ahead of you at home. It might be worse. You will go back, won't you, Helmi?"

Helmi fell on her knees beside the bed.

"But isn't it a good country, Aunt Lili, like you said? Can't I get along like you did?" she sobbed. "I can work, Aunt Lili, like you did."

"It's a good country, Helmi," said Aunt Lili when she could speak, "just like I said, only men are so bad, and it's hard for a young girl alone, and I am so afraid for you. Men just want their own pleasure. Mike was good to me while I could sport around and dance, and while I did not say a cross word to him for what he did to men when they got drunk. He takes their money, Helmi; I can't stand that. I threatened him I'd go and tell, and then he struck me with a chair. He never comes to see me now, Helmi, and he made me take this room above the bar because when people pay for rooms they want to sleep. He says, 'You're awake, anyway, with your cough, so what's the odds?' Helmi, men are queer and all for self. The trouble started when my little Helmi was on the way. I had her named for you. Men do not like kids, they're too much trouble. He was mad and cruel at me because I was not smart and was sometimes sick, and when little Helmi came she only lived a day, and he was glad. Then I hated him, Helmi—I hate him now, and an dwas sometimes sick, and when one is going to die, but I cannot help it, Helmi, I wanted to warn you not to get mixed up with men they break your heart."

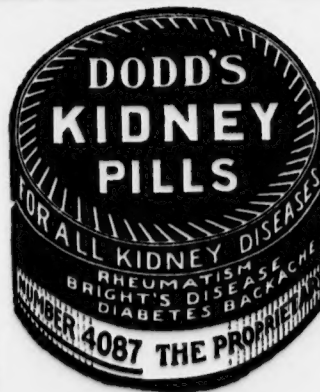

(To Be Continued.)

Had All of Them

A man wearing a worried look went into a shop which advertised a patent exterminator, and asked for a hundredweight.

"Certainly, sir," said the amazed assistant, "but that quantity would be sufficient to destroy all the slugs in the Queen's County."

"I know that," was the reply. "They are all in my garden."

Would Girdle the Globe

Colossal Number of Papers Printed
Every Week on Bouverie Street,
London

For many years the "News of the World" has been produced in Bouverie street—a comparatively short thoroughfare leading southwards from Fleet street to the Thames embankment.

Despite its size, Bouverie street produces more newspapers than any other street in the world. If the pages of the papers sent out of this small thoroughfare in a week were placed end to end they would girdle the globe.

The vast weekly issue of the "News of the World" would provide a quarter of this belt, for, if the pages were placed end to end, they would make a pathway from London, across the Atlantic, across the United States, and a few hundred miles out into the Pacific Ocean on the way to Japan.

About 25,000,000 newspapers are published in Bouverie street each week, making a breath-taking total of 1,300,000,000 copies per annum.

To get the 1,000,000 copies off the machines in time to distribute them over the length and breadth of the British Isles on Sunday morning and over the rest of the world as fast as great liners can carry them, the huge battery of printing presses must produce copies of the "News of the World" at the rate of 7,000 per minute, or 420,000 per hour.

Each issue requires 500 tons of white paper, 16,000 lbs. of black ink, and to tie up the parcels, 70 miles of string.

A new building in course of completion will be the most modern in existence.

NO MEDICINE LIKE
BABY'S OWN TABLETS

For Either the Newborn Babe or
the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R. R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make feeding easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Grow Tobacco at Coast

Possibilities of Growing Leaf in B.C.
to be Tested

Possibilities of the British Columbia coast as the centre of a large tobacco growing industry will be tested out this year as a result of experiments sponsored by T. E. Coventry, member of the Provincial Legislature. Seed has been imported and is being grown on two half-acre experimental plots at Saanich. One will be irrigated and the other worked without irrigation to test out the best method of production.

Ease sunburn with Minard's Liment

Blind Girl is Braille Writer

Blindness has given a profession to Claudine Johnson, of Woodward, Oklahoma, who, although born without sight, has in her early twenties become a transcriber for the blind. Recently she was accepted as a transcriber for the National Library for the Blind at Washington, D.C. Various civic organizations have financed her work. Her mother reads the books to her while she punches out the Braille letters on heavy brown paper.

New Ocean Depth Found

A greater ocean depth than heretofore known has been discovered by the cruiser Emden, the German Admiralty announces. On the way from Celebes Island in the Dutch East Indies to Nagasaki, Japan, the Emden measured an ocean depth of 34,116 feet. What has up to now been thought the greatest depth is 32,611 feet, off the eastern coast of Japan.

Campers—Take Minard's with you.

Gum-Dipping
Gives
Thousands of
Extra Miles

Every strand of every
cord is insulated and im-
pregnated with rubber, after
which the cords are coated
by the regular calendering
process.

This extra advantage—
this extra process that is ex-
clusive to Firestone, is your
assurance of greater tire
economy, safety and com-
fort. See your nearest
dealer to-day and have your
car equipped with Firestone
Gum-Dipped Tires.

Little Helps For This Week

I will not leave you comfortless: I
will come to you. John xiv. 18.

But He whose human feet have trod
All paths of trial, He who know
No sympathy but that of God,
Though linked with flesh that
craved it too,

Years with us in our needs, our
dreads;

And mindful of our feeble frame,
Holds to His heart our throbbing
heads,

With love that hath no mortal
name.

Margaret J. Preston

We can never know a sorrow into
which the Son of man cannot enter;
and we can never understand the
depth and preciousness of His sym-
pathy till we come to need it. I have
had a very deep wound, the trial has
been very severe; but how should I
have known Christ as a brother
without it?

Lady Powerscourt, Letters

Spare the children from suffering
from worms by using Miller's Worm
Powders, a most effective vermifuge
with which to combat these insidious
foes of the young and helpless. It is
an excellent worm destroyer, and
when its qualities become known in
a household no other will be used.
The medicine acts by itself, requiring
no purgative to assist it, and so thor-
oughly that nothing more is desired.

Afrasia can be grown over the wid-
est range of climatic conditions of
any legume yet grown in Canada. It
is now being produced in every pro-
vince from the Atlantic to the Pacific.

PIMPLES BROKE
OUT ON FACE

Lasted Nearly a Year.
Healed by Cuticura.

"My skin trouble began with
pimples breaking out on my face.
They gradually grew worse and
spread to my body. They were red
and itched very much, and when I
scratched them it caused more pain.
Scratching caused eruptions which
disfigured my face. At night I could
not sleep on account of the irritation.
The trouble lasted nearly a year."

"I read an advertisement for Cuti-
cura Soap and Ointment and sent
for a free sample. The sample
helped me so I purchased more and
in five months I was healed."

Signed: Willie A. Yaremko, 8924-
88th Ave., Edmonton, Alta.

Use Cuticura Soap, Ointment and
Talcum for daily toilet purposes.

Sample Book Free by Mail. Address: Canadian
Dept., "The Cuticura Co., Montreal." Price: Soap
50c, Ointment 75c and 25c, Talcum 50c.
Cuticura Shaving Stick 25c.

TO WOMEN
OF MIDDLE AGE

Mrs. Wilson's Experience a
Guide to Women Passing
through the Change of Life

Hamilton, Ontario.—"I have taken
several bottles of Lydia E. Pinkham's
Vegetable Compound and I cannot
speak too highly of it as I was at the Change
of Life and was all run-down and
had no appetite. I was very weak
and sick, and the pains in my back
were so bad I could hardly move. I
got very sad at
times and thought I had not a friend
on earth. I did not care if I lived or
died. I was very nervous, too, and
did not go out very much. A friend
advised me to try a bottle of Lydia E.
Pinkham's Vegetable Compound, so I
did. I am a farmer's wife, and al-
ways worked hard until lately, and
was in bed for two months. I began
to feel like a new woman after the
first bottle and I recommend it with
great success, also Lydia E. Pink-
ham's Liver Pills. I am willing to
answer letters from women asking
about your medicines, as I cannot
speak too highly of them."—Mrs.
EMMA WILSON, 471 Wilson Street,
Hamilton, Ontario.

LITTLE ITEMS OF
LOCAL INTEREST

Mrs. Otto Martin was unfortu-
nate on Friday last when she fell
from a horse, breaking her collar
bone.

Mr. and Mrs. Carr arrived from
Claresholm on Thursday and spent
a few days in town prior to their
leaving for the Pacific coast.

J. A. Connolly spent the week
end holidaying at Big Valley.

Mrs. Malton, Mrs. Willson and
G. Peters spent Friday in the City.

D. McKinnon motored to Calgary
on Saturday, returning on Monday.
He was accompanied by Miss L.
Gordon.

W. Poxon is erecting a barn be-
hind his residence.

R. H. Purdy took in the Drum-
heller Stampede last week.

The High School examinations
started last Friday and continue
all this week. The Grade 8 exams.
started today.

The Frico Stores are putting on
a big summer clearance, which
lasts to the end of the month.

A. Davis, who has been holiday-
ing in Calgary and Edmonton for
the past two weeks, returned to
Carbon on Monday and has resumed
his duties in the Bank of Mont-
real.

A number of the citizens render-
ed assistance in the Carbon park
on Tuesday evening. The Editor
was unavoidably absent and we
understand was greatly missed by
the genial workers.

S.E. Peters left on Tuesday for
Chattam, Ont. and will spend the
next couple of months there.

J.A. MacDonald was a Calgary
visitor over the week end.

Mr. and Mrs. Chas. Kirby and
family, Miss Chase and Miss Kirby,
of Rockyford, spent last Saturday
in Carbon.

John Atkinson was elected as
delegate to the Alberta Wheat Pool
by acclamation.

Miss Lucy Ruff spent Sunday in
Calgary.

J. A. Toombs is making a profes-
sional visit to Three Hills today.

D.F. McKinnon has secured the
contract for the building of the
new Gamble school.

Mrs. Jas. McLeod was a Calgary

visitor on Tuesday, returning on
Wednesday.

Saturday, July 2nd has been pro-
claimed a public holiday by the Do-
minion Government under section
13 of the Diamond Jubilee act and
by proclamation of the Governor
General.

The school children held a picnic
in the park on Friday afternoon.

J.A. Toombs and E.J. Rouleau
motored to Stettler on Sunday, re-
turning Monday evening.

Mrs. John Hummel returned to

Carbon on Monday after spending
the past week in Calgary.

H. N. McNaughton was a Cal-
gary visitor on Monday.

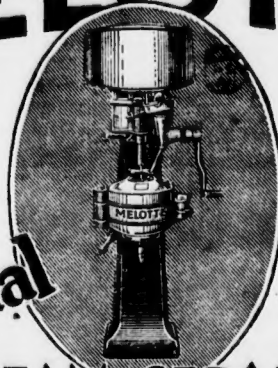

WAYNE GOLEERS TO PLAY
GOLF HERE OF JULY 6

On Wednesday, July 6, the mem-
bers of the Wayne Golf Club will
visit Carbon and play a friendly
match with the Carbon Players.

The course here is being put in
shape and by that time everything
should be in readidness for the vi-
sitors.

The Logical Choice of the
Two-Car Family

THERE are many reasons for the choice of
Chevrolet in the two-car home—its de-
pendability in all weathers and under all con-
ditions—its quick response, ease in handling,
and its irresistible beauty appealing to the
finer tastes. The many improvements first in-
troduced in low-priced cars by Chevrolet and
the striking beauty of design and color make it
a car worthy of service to those who also own
the costliest of cars. More and more the own-
ers of big cars are now turning to Chevrolet
for a second car.

The Most Beautiful Chevrolet in Chevrolet

History with its Fisher-built Body—its Duco
color—its hosts of mechanical refinements in-
cluding oil filter, air cleaner and many others
—is selling at new, low prices, the lowest for
which Chevrolet has ever been sold in Canada.
